The Space Family and their RobotThe set contains the following figures: the Robot, the Doctor, Don, John, Maureen, Judy, Penny, and Will. These figures are based on the original Lost in Space® television series and are designed to be used with the Polar Lights Jupiter 2® 1:60 scale model. Several years ago we were approached and given permission to create the entire crew of the Jupiter 2 for the Polar Lights Jupiter 2 1:60 scale model. We printed the original versions on our FDM printer. We have reworked the files to print on our new higher resolution resin printers. The figures are printed using Hero resin from [3D Resin Solutions](https://www.3dresolutions.com/). 3D printed and shipped by CatzPaw.

Stretcher Bearer Standing

This figure was created for the Historical Diorama on display in Cuthbert, GA. The clothing is based on attire worn during the Civil War and post Civil War Era. However, this figure can easily be adapted for use in other time periods. Printed in DLP resin; color may vary. This figure could also be used with a wheelbarrow, hand plow, or other push/pull object. NOTE: S-Scale (1:64) contains 2 figures. HO-Scale (1:87) contains 3 figures. N-Scale (1:160) contains 4 figures. O-Scale (1:48) contains 1 figure. 3D printed and shipped by CatzPaw.

Battery 3v Lithium Coin Cell (CR2032)

Replacement battery for CatzPaw's LED driven product line. 3v coin cell battery (CR2032) Lithium, non-rechargeable Capacity: 225mAh Package includes one (1) CR2032 battery. Shipped by CatzPaw.

Grommets

A set of ten (10) grommets measuring 1/2" 1/4" each; printed in gray ABS plastic. 3D printed and shipped by CatzPaw.

HO Truck Mounting Pins

A set of 10 HO Truck Mounting Pins printed in gray Hero Resin. Maximum diameter: 4.3 mm Minimum diameter: 2.0 mm Total Height: 8.3 mm 3D printed and shipped by CatzPaw.

Just Plug WS Rectifier Assembly

Replaces 3V battery for operation from Woodland Scenics® Just Plug™ Lighting System. To use, unplug the 3V battery pack and replace with the rectifier assembly; align red dot on connector with red power wire. Package includes: one (1) rectifier assembly. Assembled and shipped by CatzPaw.

LED Size
NANO/CHIP/1.8 (Other Scales), PICO (N-Scale)

LED Warm White CHIP Lighting Assembly

These small LEDs are known as surface mount LEDs, SMD LEDs, or Chip LEDs. They are very small and compact yet very bright!. The benefit of a flat and compact LED chip is that it still gives a great amount of light, but can be mounted flush, with no bulb shape showing. Package includes: 1 - prewired warm white CHIP LED1 - 3v Battery Assembly (3V CR2032 battery, battery holder, and push button switch) 1 - 7-19v AC/DC/DCC rectifier assembly For more types of LEDs, see our friends at [Model Train Software](#) Assembled and shipped by CatzPaw.

LED Yellow 1.8mm Flickering (3v)

A flickering LED that never goes out, it just goes up and down in brightness in a nice random pattern. This LED is used in our Flickering Campfires, BBQ Grills, and Burn Barrels. They are also great for torches, oil lamps, coal in a blacksmith's forge and other places where a soft subtle flicker is needed. At 1.8mm, the flicker LED can fit in areas where it is not practical for a larger LED. These flickering LEDs are wired with a minimum of 8 inch, maximum 14 inch, 28 AWG Kynar hookup wire; no resistors needed when operating at 3v DC. Package includes one (1) prewired LED. For more types of LEDs, see our friends at [Model Train Software](#) Shipped by CatzPaw.

LED Yellow 3.0mm Flickering (3v)

A flickering LED that never goes out, it just goes up and down in brightness in a nice random pattern. This LED is used in our Flickering Campfires, BBQ Grills, and Burn Barrels. They are also great for torches, oil lamps, coal in a blacksmith's forge and other places where a soft subtle flicker is needed. At 3.0mm, the flicker LED can fit in areas where it is not practical for a larger LED. These flickering LEDs are not prewired; no resistors needed when operating at 3v DC. Package includes two (2) LEDs. Shipped by CatzPaw.

LED Yellow Pico SMD Chip (3v)

These super small LEDs are known as surface mount LEDs, SMD LEDs, or Chip LEDs. They are very small and compact yet very bright!. The benefit of a flat and compact LED chip is that it still gives a great amount of light, but can be mounted flush, with no bulb shape showing. These chip LEDs are wired with 8 inch red/green superfine magnet wire; no resistors needed for 3v DC operation. Package includes one (1) prewired LED. For more types of LEDs, see our friends at [Model Train Software](#) Shipped by CatzPaw.

STRUCTURES

1920's Store Front Kit

A 1920's style store front model kit. This building is a faithful reproduction of a 1920's structure that originally housed a barber shop and is based on drawings provided to us by one of our customers; it completes a recreation of a 1920's town that the customer's father grew-up in. This building can be used for any number of building occupants: barber shop, mercantile, repair shop, just to name a few. As mentioned, this is a kit and requires assembly. It is printed in gray ABS plastic, with clear styrene pieces for the windows. The walls are scaled to represent 6" thick prototype walls. Lighting can easily be added to this kit by installing one of our [warm white CHIP LED assemblies](#). The kit contains: 1 - front wall1 - left wall1 - right wall1 - rear facing left wall1 - rear side facing left wall1 - rear center wall1 - rear facing right wall1 - rear side facing right wall1 - floor1 - roof1 - set of windows 3D printed and shipped by CatzPaw.

Smoothest Fine Detail Plastic

CPI Snow Plow Kit

This is an S-Scale (1:64) Russell Winged Snow Plow Kit loosely based on the Northern Pacific Railway version. It is designed with hinged side wings (h-Bar brass hinges) utilizing lock bars (pinned hinges) with a magnetic latching system allowing the wings to be set varying positions and keeping those wings in place during operation. Also included is a lower blade that magnetically attaches to any metal chassis. This product is being sold as a kit to allow for maximum customization with the least amount of aggravation. Key components of the snow plow kit have been pre-assembled, only the detail options (railings, steps) and the clear windows need to be added. You can use the 3D printed railings and steps provided in the kit or substitute your own versions. The CPI Snow Plow shell has been designed to mount to a standard American Flyer Caboose Chassis measuring 42-44mm wide by 115-118mm long. The snow plow is printed in cool gray DLP resin. Kit Contents 1 - Snow Plow shell, in the selected color, with the left/right wings, left/right lock bars, and all magnets installed1 - Lower Blade with magnets installed1 - Rear Railing panel1 - Rear Ladder2 - Rear Steps1 - Set of clear windows2 - #2-56 screws (to mount shell to chassis)1 - Set of Assembly Instructions 3D printed and shipped by CatzPaw.

Color
Gray DLP resin

VEHICLES

1950's Bus Kit

This is a 1950's style S-Scale (1:64) bus kit. This product is being sold as a kit to allow for maximum customization with the least amount of aggravation. Most portions of the bus kit can be snapped together and will stay in place. For other items such as the mirrors, super glue (Cyanoacrylate) can be used to affix them to the body. Super glue can also be used to permanently attached the bus shell to the chassis. All portions of the kit are 3D printed in ABS plastic except for the clear windows (cut from sheet styrene) and the axels (brass rod stock). ABS plastic can be painted with acrylic and enamel paints with or without a primer. We recommend a paint sealer if the unit is to be handled a lot or run on a regular basis. Kit Contents 1 - Bus Body1 - Chassis/Interior1 - Wheel Set1 - Head Light Set1 - Tail Light Set2 - Side Mirrors1 - Clear Window Set1 - Bus Driver (unpainted)1 - Set Assembly Instructions 3D printed and shipped by CatzPaw.

BuckBoard

Flying Saucer

Experience close encounters of the "scale" kind with CatzPaw's flying saucer! It is available in gray and glow-in-the-dark ABS plastic. The S-Scale Flying Saucer measures 149.3mm in diameter. The Z-Scale Flying Saucer measures 44.76mm in diameter. The N-Scale Flying Saucer measures 82.28mm in diameter. The HO-Scale Flying Saucer measures 111.94mm in diameter. Package includes one (1) Flying Saucer in the selected color. 3D printed and shipped by CatzPaw.

Scale
1:64 - S, 1:87 - HO, 1:160 - N, 1:220 - Z

Color
Gray, Glow-in-the-Dark

Grinder Mixer Auger Replacement

This is a replacement auger arm for a 1:64 scale grinder mixer. Fits Ertl and other manufacturer models. NOTE: this item is the auger arm only and does not include the mixer. The small part of the arm will need to be snapped on to the long shaft and should rotate freely about the axis. The completed arm then snaps on the mixer itself. If the fit on the mixer is to tight, slightly sand the inner portion of the connector. 3D printed and shipped by Shapeways. CatzPaw reserves the right to substitute a CatzPaw printed item of equal quality and detail. Color may vary.

Scale
1:64 - S

Material
Yellow Processed Versatile Plastic, Red Processed Versatile Plastic, Orange Processed Versatile Plastic, Green Processed Versatile Plastic, Blue Processed Versatile Plastic

Motorcycles

You have seen our motorcycle riders, now get the motorcycles they ride! These great S-Scale (1:64) bikes, along with others, are available from [SZenery Scale Models](#). You can purchase these bikes directly from SZenery; [click here](#) to be taken to their online store. Note: the bikes come unpainted and must be purchased from SZenery. WE DO NOT SELL THESE ITEMS, YOU CAN NOT ADD THEM TO THE SHOPPING CART.
